| 19. That anything not specified above is compliant with the Technical Regulations. | YES | NO |
| 20. That I verified that the minimum weight of the kart in the ready-to-go condition and when crossing the finishing line will not be less than 160 kilos as provided for by the Technical Regulations. | YES | NO |
| 21. That the racing gear (suit, gloves, boots and helmet) is compliant with the National Karting Rules and Regulations. | YES | NO |
| 22. That the race-ready weight of the driver will not be less than 80 kilos as provided for by the Technical Regulations or being over 35 years old. | YES | NO |
| 23. That I am installing exclusively Freeline spark plugs for the race, as originally supplied. | YES | NO |

I also declare:

- To accept without reservation the possible replacement of any mechanical component decided by the official representatives of the manufacturers. Such measure can be implemented at any time of the event as a preventive measure with materials of certified conformity.
- To accept without reservation, during post-race verifications, the withdrawal of the engine or any other technical component by the manufacturers for conformity verifications at their headquarters. The technical materials removed will be returned, at the expense of the manufacturers, as soon as possible and in any case not after 30 days from the event.
- To use lead-free commercial fuel purchased from ERG filling station in front off the track and not to have added any sort of additives.
